

Intersleek[®] Pro

Terms & Conditions

Intersleek Pro is a foul-release system formulated for use on commercial ships (GT 500 or more). It's proven to be highly successful in its target market, improving performance that subsequently leads to fuel efficiencies. In this market customers have averaged 6% fuel savings.

We fully expect Intersleek Pro to perform well in the Yachting environment, however, it's important to note the following factors that may affect performance outcome and ultimately customer satisfaction:

- Intersleek Pro does not have active anti-fouling ingredients such as biocides. Instead it's a foul-release system. It will pick up fouling over time; in particular it will pick up fouling when the yacht is stationary.
- Fuel savings are not guaranteed at this stage.
- Intersleek Pro is designed to release fouling growth upon movement, therefore fouling developed in a stationary/low usage environment will likely require regular cleaning.
- When cleaning the hull the manufacturer's cleaning instructions must be followed to avoid damage to the outer layer of the coating (please refer to the Intersleek Pro Maintenance and Handling Manual).
- Damage to the coating may impair performance.
- Mishandling of the yacht when lifting/hauling or moving the hull could lead to paint detachment and impaired performance or damage to the boat itself (please refer to the Intersleek Pro Maintenance and Handling Manual).
- Please refer to the Intersleek Pro Maintenance and Handling Manual for complete guidelines.
- Insufficient surface preparation and not following the manufacturer's application procedures may lead to detachment and impaired performance of the coating.

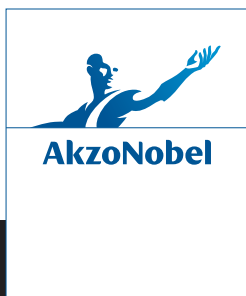

I have read this information and by signing this agreement, I accept the risks and liabilities associated with an Intersleek Pro paint system and I understand that Intersleek Pro paint system is not covered by the Interlux standard warranty.

- I confirm that I have read and understood the conditions outlined above.
- I confirm that I have received the Intersleek Pro Maintenance and Handling Manual.
